Tool trolley

13217 TS IP67

Product no.	**81091322**
GTIN	**4018754284481**
Model	**13217 TS IP67**

Label. Tool trolley 13217 TS IP67 deep black

Properties.

- robust and durable polypropylene toll trolley for professional use
- 6 easily removable drawers with pull-out stop
- drawers can be inserted in any order
- with a removable top cover and front cover
- the top cover is lined with dimpled foam to securely hold the tools in place
- 1 removable tray with 2 handles and 2 transparent drawer lids under the top cover
- drawers can be used as separate tool boxes thanks to transparent lids
- individual labelling options for the case and drawers
- 2 smooth-running double castors on the telescopic handle side
- can be converted for upright transport on 4 wheels with wheel set R 13217 (please order separately)
- extendable telescopic handle for easy transport
- 2 side carrying handles
- resistant to skydrol, acetone, petrol and hydraulic oils
- load capacity: 60 kg
- lockable in 3 positions with a padlock
- additional locks and seals to protect against water and dust
- with valve for pressure equalisation
- protection class: IP67
- customised case variants available on enquiry

Benefits.

Heavy-duty tool trolley made of sturdy polypropylene with telescopic and carrying handles - easy to transport and can hold up to 60 kg.

The trolley is reliably protected against dust and water (IP67) and is always easy to open thanks to the pressure equalisation valve.

Reliable use in the workshop or on site - optimal for mechanics, machine setters, fitters and technicians.

6 drawers can be removed individually, used as separate tool boxes and arranged flexibly in any order.

Models from 2025 onwards offer additional storage space thanks to a lid with rail guide and the patented LOCK-UNLOCK system for the 13261 and 13262 top cases.

Product highlights.

Reliable and always at hand.
Whether in the workshop, on assembly or between aisles in the industrial hall - our toll trolley goes wherever you go. With a sturdy telescopic handle, 2 side carrying handles and smooth-running castors, it can be moved effortlessly - and reliably carries up to 60 kg.

PRODUCT IMAGE IN PROGRESS

All-round protection.
Our trolley offers IP67 protection, ensuring that it and the tools remain reliably safe, dry and ready for use at all times, even on dusty construction sites or when used outdoors in the rain. The integrated pressure equalisation valve ensures that the air pressure adjusts automatically, making the lid easy to open - even in the event of temperature fluctuations or during transport.

PRODUCT IMAGE IN PROGRESS

Made for the toughest jobs.
Whether oil, chemicals or dirt - our case remains steadfast. It is resistant to Skydrol, acetone, petrol and hydraulic oils. With water- and dust-protected closures, it is also ideally equipped for harsh industrial applications.

Organisation that thinks for itself.
The removable drawers are lockable and can therefore also be used as individual boxes. They can be individually equipped with our TCS mats. Thanks to the pull-out stop and free arrangement, everything stays where it belongs. On top, a removable shelf with handles and drawer lids ensures quick access to frequently used parts.

Well equipped.
Our trolleys are of course also available with matching tool sets. However, we are also happy to put together sets according to customer requirements for individual needs. Just get in touch with us.

PRODUCT IMAGE IN PROGRESS

More storage space, cleverly combined.
From model year 2025 onwards, there will be even more space: thanks to the new lid rail guide and the practical LOCK-UNLOCK system, matching top cases such as 13261 TS and 13262 TS can be easily attached and securely connected. A simple flick of the lever is all it takes to get the module ready for use. And best of all, older models can also be easily retrofitted with the appropriate lid. Everything in a modular system - for maximum organisation and flexibility.
