Product highlights.

Individual.
The four handle sizes for the screwdrivers are designed specifically to match the drive profiles.

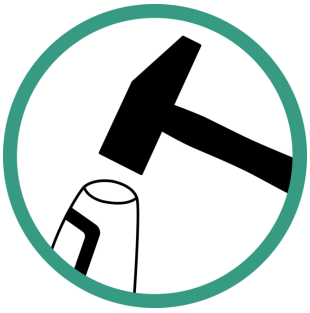
Outstanding craftsmanship.
The blades are made of exceptionally fine industrial-grade chrome alloy steel, through-hardened and anchored in the grip in such a way that they stay there.

Robust.
Whether slotted or cross-head - the rough blade tips transfer even the greatest torques to the screws - precisely and safely.

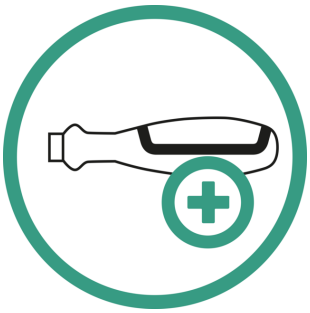
Convenient.
The screwdrivers are available in a set - either conveniently housed in ES inserts or TCS safety inlays, designed for use with STAHLWILLE tool trolleys and tool boxes.

Technologies and features.

Tool Control System
The intelligent modular inlay system protects and organises the tools in tool boxes, tool trolleys and workbenches. Two-colour foam inlays make checking the completeness of the tools quick and easy.



Impact cap
Our DRALL+ screwdriver is equipped with a metal impact cap for use in extreme conditions, enabling the screwdriver to be impacted with a mallet or hammer.



DRALL+
Our DRALL+ handle is non-slip and ergonomic. An extended grip zone protects the fingers and a hand stop prevents the tool from accidentally slipping or rolling away.
