

## Ratchet spanner set

### TCS 13217 WT FastRatch 240/10

Product no. **96830130**  
GTIN **4018754248858**  
Model **FastRatch TCS WT 240/10**

#### Label.

Ratchet spanner set FastRatch TCS WT 240/10 8-19 10 pcs.

#### Properties.

- particularly suitable for union joints
- for metric and imperial bolted joints
- slim ergonomic design
- made from stainless, tempered steel
- suitable for the 30 mm drawers of tool trolley No. 13217
- safely integrated in the modular Tool Control System (TCS)

#### Contains 10-pieces:

10 ratchet spanners **No. 240**: 8 mm - 5/16"; 10 mm - 3/8"; 11 mm - 7/16"; 12 mm - 15/32"; 13 mm - 1/2"; 14 mm - 9/16"; 16 mm - 5/8"; 17 mm - 21/32"; 18 mm - 11/16"; 19 mm - 3/4"

## Benefits.

Unrivalled FastRatch ratchet spanner set for hex union joints.

Thanks to the patented technology of the 'opening ring' it can perform perfectly, even in installation locations which are difficult to access such as cable screw connections.

In the modular Tool Control System (TCS) tool inserts - an intelligent storage solution for tool and workshop trolleys.

Combines the advantages of several tools: Centring on the screw head of a ring spanner, lateral fitting of an open-ended spanner and reliable ratcheting.

The distinctive STAHLWILLE round finish gives the ratchet spanner a non-slip and comfortable feel for safe working, even with oil-smearred hands.

## Product highlights.

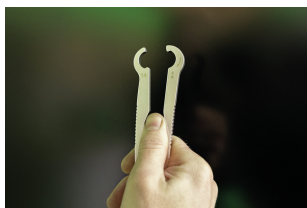

### Three in one.

The ratchet spanner is multifunctional: combination of ring spanner, open-ended spanner and a ratchet for the highest degree of technical flexibility and reliability when carrying out work processes.

### Fixed self-clamping effect.

The screw profile consists of hinged jaws that tighten when torque is applied, transferring force to the flanks of the screw head. The ratchet spanner's closing mechanism ensures a secure and centered fit on the screw. When unloaded, the integrated closing spring provides a reliable connection between the tool and the screw.

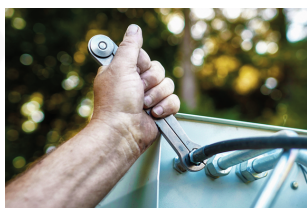

### Easy to use.

Light pressure on the thumb release opens the spanner, allowing it to be slid sideways onto the hex screw. The arrow marking on the spanner head indicates the direction of operation.

### Excellent workmanship.

The tool is made of high-quality stainless steel, which gives it outstanding stability and resistance to continuous use.

### Wide range of applications.

Thanks to the sophisticated system and ergonomic shape, it is ideal for tightening screws on brake lines, tie rods, exhaust gas temperature sensors, diesel fuel lines or air conditioning pressure sensors.

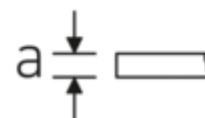

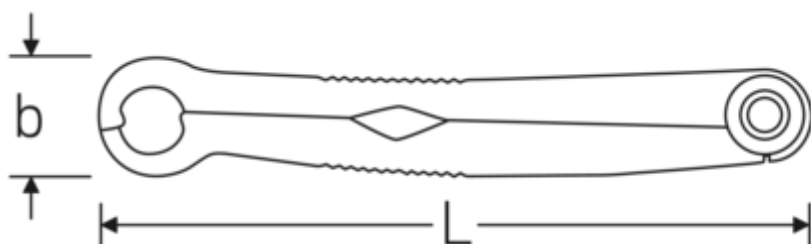

## Technologies and features.

### Tool Control System

The intelligent modular inlay system protects and organises the tools in tool boxes, tool trolleys and workbenches. Two-colour foam inlays make checking the completeness of the tools quick and easy.
